

## Regionals:

Team Fusion, Team #364 began their conquest ten years ago at the Lonestar Regional in Texas. After many great years spent at this regional (as a qualifier and a finalist), we migrated closer to home and joined the Bayou Regional in New Orleans, Louisiana. With great success at this regional (Chairman's Award, Engineering Inspiration, the Entrepreneurship Award), we have decided to go outside of our comfort zone and compete in the Florida Regional in Orlando, Florida. We will be posting the results of these two regionals (Bayou and Florida) after competing.
